INTRODUCTION

WELCOME to bicycling in the California Department of Transportation's District 5. The moderate climate and scenic beauty of the Central Coast attracts bicyclists from around the State and all over the world. These maps of State Highways are provided as a guide to bicyclists traveling through the Counties of Santa Barbara, San Luis Obispo, San Benito, Monterey, and Santa Cruz.

All of the State Highways are open to bicyclists except a few sections of freeways. Alternate routes are shown for these. There are many suitable roadways (non-state highway) and bike paths for commute and recreational bicycle travel which are not shown in this guide. It is NOT intended to replace city, county, or regional bicycle maps. Touring cyclists should obtain additional resources prior to their trip.

Remember to have the proper equipment for the type of trip proposed. Towns and services are sometimes far apart and weather conditions may vary.

A word of CAUTION, however. We urge those who cycle on State Highways to be alert to possible hazards that may be encountered. Many roads have narrow or no shoulders and are traveled by trucks and recreational vehicles.

The State of California, the cities and counties over whose facilities you may travel are NOT responsible for your safety. No representation is made or intended as to the safety or fitness of the routes where travel is allowed.

We hope you enjoy bicycling in this area. We welcome any comments you have on this bicycle guide, or how bicycling here can be improved.

TIPS for SAFE BICYCLE RIDING

- *Wear a helmet.*
- *Ride with the traffic flow.*
- *Ride in a straight line and single file.*
- *Stop at stop signs and red lights.*
- *Use a light, reflectors, and reflectorized clothing during darkness.*
- *Wear bright clothing during daytime.*
- *Keep a safe distance from parked cars whenever possible.*
- *Use proper hand signals when turning, stopping, or changing lanes.*
- *Use extra caution when it is raining or foggy, and allow extra time to stop.*
- *Cross railroad tracks at a right angle.*
- *Walk your bike when using a crosswalk.*
- *Do not wear headphones on both ears while riding.*
- *Keep your bike properly maintained so it is safe.*
- *Inflate tires to the recommended tire pressure.*
- *Do not drink and ride.*
- *Carry identification while riding.*

Rules of The Road

This is a summary of the bicycle provisions of the California Vehicle Code. Readers should check the Vehicle Code for more detailed information and actual wording.

21200 Bicycle riders have all the rights and responsibilities of vehicle drivers.

21200.5 It is against the law to ride a bicycle while under the influence of alcohol or drugs.

21201. Bicycles must be equipped with a brake able to make one braked wheel skid on dry, level pavement.

Handlebars must not be higher than the rider's shoulders.

The bicycle must be small enough for the rider to stop, support it with one foot on the ground, and restart safely.

Every bicycle operated at night must have the following equipment:

- A white headlight, or a white light attached to the rider and visible from the front and sides for a distance of 300'.
- A red rear reflector attached to the bike and visible for 500'.
- White or yellow pedal reflectors and white or red reflectors on each side of the bicycle or reflectorized tires.

21202. Bicyclists traveling slower than the normal speed of traffic must ride as close to the right as practicable, except in the following situations:

- When passing another bicycle or vehicle.
- When preparing for a left or right turn.
- To avoid hazards that make it unsafe to stay this far right.

On one way streets, bicyclist may ride as near to the left as practicable.

Rules of The Road

21203. Cylcists may not hitch rides on vehicles.

21204. Cyclists and passengers must each have a permanent and regular seat.

Children 4 years old and younger, or weighing 40 pounds or less, must have seat restraints that provide protection from the moving parts of the bicycle.

21205. Bicyclists may not carry any package or article that prevents them from keeping at least one hand on the handlebars.

21208. Whenever a bicycle lane has been established on a roadway, a bicyclist shall ride within that lane. The bicyclist may move out of the lane after giving an appropriate signal (1) when overtaking and passing another bicycle, vehicle, or pedestrian within the lane, (2) when preparing for a left turn at an intersection or into a private road or driveway, (3) when reasonably necessary to leave the bicycle lane to avoid debris or other hazardous conditions, and/or (4) when approaching a place where a right turn is authorized.

No person operating a bicycle shall leave a bicycle lane until the movement can be made with reasonable safety and then only after giving an appropriate signal.

21210. It is illegal to leave a bicycle on its side on a sidewalk, or park it in any way that blocks pedestrians.

21212. All persons under 18 years of age must wear a helmet when operating a bicycle or riding as a passenger.

21650.1 Bicyclists may ride on the shoulder of a highway if it is not otherwise prohibited.

21960. Bicyclists may not ride on freeways where signs prohibit it.

23330. Bicyclists may not cross a toll bridge unless permitted by signs.
