CALTRANS OVERSIGHT INFORMATION NOTICE

DLA COIN Issue #12-01

Release Date: January 25, 2012

Welcome to the COIN!

This is a Caltrans Oversight Information Notice, or "COIN" for short. These short, single-topic bulletins are intended to provide outreach information and guidance to local agencies on issues pertaining to Federal-aid projects. They cover a wide variety of subjects, including discussions of findings resulting from process reviews by Caltrans and/or FHWA, changes in procedures or regulations, reminders of existing procedures or best practices, and other timely information. The goal is to ensure proper and timely delivery of Federal-aid projects.

TOPIC: Poster Requirements on Federally-Funded Construction Projects

As most local agencies have experienced, making certain that all required California and Federal posters are posted on a federally-funded construction project is not an easy task, and not always fully accomplished. One tool that is available to make this task easier for local agencies is the Caltrans Division of Construction website that lists the following required posters:

- Labor Compliance Posters required on all projects
- Other Posters required on all projects
- Posters required on all federally funded projects
- Posters required on American Recovery and Reinvestment (ARRA) projects
- Additional Posters required by FHWA

The address of this Caltrans Division of Construction website is:

<http://www.dot.ca.gov/hq/construc/LaborCompliance/posters.htm>

Though not posters, but included in the listing above, are the Federal (Davis-Bacon) wage rates and the California State prevailing wage rates, which are applicable to the specific contract, and also to be posted at the job site.

The lists presently at the above website are attached for your information; however the website should be checked periodically for updates and changes. In addition to the required posters, the website provides links to a number of other governmental agencies should you have a need to contact them.
