**(916) 759-0340 Cell**

**SUMMARY:**

Mr. Burton has over 48 years experience in the highway construction industry. Since 1983, he has been assigned as the Resident Engineer on over 55 Caltrans projects and 7 projects for the Town of Truckee.

**EXPERIENCE:**

2005-Present Town of Truckee

Mr. Burton's responsibilities include administration of construction contracts and to over-see preparation of Plans and Specifications for upcoming projects.

2003-2005 Vali Cooper and Associates

After retirement from Caltrans, Mr. Burton was retained by Vali Cooper and Associates and supplied to Caltrans as a Claims Consultant assisting in the final settlement of claims on the recently completed Truckee Bypass Project.

1983-2003

Mr. Burton was the Caltrans Resident Engineer on approximately 55 highway construction projects for which he was responsible for the administration of the Contract including review of Notice of Potential Claims and the preparation of position papers for submittal to the Dispute Review Board. The projects ranged in size from small to the Truckee Bypass, which exceeded \$35 million.

1961-1983

Mr. Burton worked in the Sacramento area for Caltrans serving in most part as Principle Assistant Resident Engineer on numerous construction contracts.

Major projects on which Mr. Burton was assigned as a Resident Engineer:

- |           |  |
|-----------|--|
| 1999-2003 | Truckee Bypass   |
| 1997-1999 | Emergency repair Rte 49 at Downieville, reconstruction of Rte 49 in Loyalton and widening of Rte 267 near Brockway Summit.   |
| 1996      | Interstate PCC overlay at Baxter   |
| 1990-1996 | Midway Bridge on Rte 89, Emerald Bay hillside viaduct and retaining walls, PCC overlay on Interstate 80 thru Truckee and reconstruction of old Rte 80-89-267 separation structure. |
| 1985-1989 | Roseville Bypass (Rte 65) and Atlantic Street and Taylor Road structures on Rte 80.  |
