**CONSIDERATION OF THE DRAFT CALIFORNIA  
TRANSPORTATION PLAN (CTP)**

INFORMATION ON THIS ITEM WILL BE  
PROVIDED PRIOR TO THE MARCH 16-17, 2016  
CALIFORNIA TRANSPORTATION COMMISSION MEETING

# Memorandum

To: CHAIR AND COMMISSIONERS  
CALIFORNIA TRANSPORTATION COMMISSION

CTC Meeting: March 16-17, 2016

Reference No.: 4.20  
Action Item

From: NORMA ORTEGA  
Chief Financial Officer

Prepared by: Katie Benouar, Chief  
Division of  
Transportation Planning

Subject: **CALIFORNIA TRANSPORTATION PLAN 2040 – OPPORTUNITY TO COMMENT**

## **SUMMARY:**

This is the California Department of Transportation's presentation to the California Transportation Commission on the final draft California Transportation Plan 2040 (CTP 2040). The final draft was released for public review on February 29, 2016, and available for comment through March 29, 2016.

Senate Bill 391 (Liu 2009) requires the State's long-range transportation plan to meet California's climate change goals under Assembly Bill 32. California has launched an innovative and proactive approach to addressing climate change and greenhouse gas (GHG) emissions by transitioning to a sustainable and low-carbon clean energy economy. The CTP 2040 is required, for the first time, to model a range of strategies for addressing how the State will achieve reduction of GHG emissions statewide to 1990 levels by 2020, and 80 percent below 1990 levels by 2050. The CTP 2040 is the vision to guide achieving these targets in the transportation sector while providing mobility and accessibility

For more information on the CTP 2040, or to provide comments on the final draft document please visit the CTP website at [www.californiatransportationplan2040.org](http://www.californiatransportationplan2040.org).

## **BACKGROUND:**

The CTP 2040 is the State's long-range transportation plan developed to meet California's future travel needs while reducing GHG emissions. The vision for the CTP 2040 is to achieve a fully integrated, multimodal and sustainable transportation system in California that delivers on the "3E's"— a prosperous economy, a quality environment, and social equity. The CTP 2040 will provide guidance for future transportation planning decisions and infrastructure investments by all levels of government, the private sector, and other transportation stakeholders. The CTP 2040 defines goals, policies, and recommendation to achieve a vision of sustainability.

These goals are:

- Improve Multimodal Mobility and Accessibility for All People;
- Preserve the Multimodal Transportation System;
- Support a Vibrant Economy;
- Improve Public Safety and Security;
- Foster Livable and Healthy Communities and Promote Social Equity; and
- Practice Environmental Stewardship.

The final draft CTP 2040 was formulated through an extensive public involvement process, meaningful consultation and coordination with Tribal Governments, and close work with local, regional, state, and federal partners, key stakeholders and advocacy organizations. Outreach activities consisted of a series of seven public workshops, seven focus groups, multiple advisory committee meetings, tribal listening and consultation sessions, two opportunities for written public comments, webinars, interactive website, electronic email using a comprehensive database of stakeholder groups, social media, printed material, and other media. The result is a transportation policy framework designed to serve all of California's diverse populations and economic interests.
